Way ahead in Weighing

PRODUCT GUIDE

FORK TYNE WEIGHER

- Fits all brands of forklifts
- High capacity and accuracy
- Robust design

■ **ABOUT THE FORK TYNE WEIGHER**

The Forklift Tyne Weigher System is a great onboard weighing solution for forklifts, reach trucks and side loaders. It has a simple, easy-to-install design with a low price tag. Designed with accuracy and speed in mind, this system enables the operator to capture the weight of any given pallet or load picked up on the spot without having to deviate from their normal loading or unloading course. Capture the weight as you unload from a truck and be able to select the position on the racking- now, that's smart. Installation of the scale involves removing the existing fork tynes from the carriage and replacing with this unit.

The digital indicator is mounted within easy reach and sight of the operator. Our solid state design is virtually maintenance-free with no moving parts, hydraulics or electro-mechanical devices to service. Priced right for your budget and built for applications just like yours, the benefit of this on-board scale certainly meets the demand of your workplace.

■ **FEATURES**

- Wifi and Bluetooth compatibility can be synced with your smart device
- Ultra-low power
- High resistance load cells
- Multiple instruments depending on complexity of task required
- High-accuracy - awaiting trade certification
- ShockBurst technology
- Compact and robust design
- Fits all makes of forklift trucks
- Max capacity: 2,500, 3,000 or 5,000 kg
- Runs 12 months on a single set of batteries or can be wired direct to power source

■ **SUITABLE FOR**

- Forklift
- Reach Truck

■ **INDICATORS**

- Smart Device - Customisable to your requirements
- Safeweigh - Low cost digital weigh only indicator
- Weightmaster - Premium weight indicator with totalising, printing and data-logging functionality

■ **SPECIFICATIONS**

| Capacity | 2,500kg | 3,000kg | 5,000kg |
|---------------------|--|--------------------|--------------------|
| Graduation | 1/2 KG | Multi-range 1/2 KG | Multi-range 2/5 KG |
| System tolerance | 0.1% of the load lifted | | |
| Overload protection | 200% | | |
| Protection class | IP65 | | |
| Cabling | via spiral cable | | |
| Power supply | Rechargeable battery or forklift truck battery - via regulator | | |

■ **DIMENSIONS**

| | 2500KG* Capacity | 3000KG* Capacity | 5000KG* Capacity |
|---|------------------|------------------|------------------|
| A Fork length | 1150 | 1150 | 1150 |
| B Fork width | 133 | 153 | 173 |
| C Height above carriage | 68 | 68 | 70 |
| D Height of carriage | 407 | 508 | 508 |
| E Fork drop** A/B | 76/152 | 76/203 | 76/203 |
| F Distance between carriage and stop plate | 80 | 80 | 100 |
| G Thickness of forktip | 15 | 15 | 15 |
| H Width of housing | 96 | 116 | 121 |
| I Width outside fork | 55 | 55 | 55 |
| J Height of stop plate | 90 | 90 | 90 |
| K Fork height | 58 | 58 | 73 |
| Weight per fork | 67kg | 79kg | 119kg |

■ **AWE - THE BEST IN THE BUSINESS**

AWE has built a reputation in providing world class products and services to customers from a wide range of industries for many unique applications. All the products come with AWE Quality Guarantee- giving you the assurance that they have been tested to meet or exceed the specifications and requirements of your application. At AWE, it's more than just delivering perfectly-designed equipment, it also requires a team of dedicated people who will back you up with great service and support. Any servicing, installation and technical support issues you encounter can be addressed either onsite or remotely by our engineers and tradesmen who carry qualifications as:

- Licensed Tradesmen
- Mechanical Engineers
- Electrical Engineers
- Structural Engineers
- Draftsmen
- Fitter & Turners
- Boilermakers
- Fully Qualified Scale Makers
- Electronic Technicians
- Instrument Fitters
- Electricians
- Service Technicians
- Project Managers
- Formworkers
- Concreters

Call AWE today.

If you have questions about

- **weighing equipment**
- **packaging equipment**
- **bulk materials handling**
- **componentry**

call the sales team at *AWE Group* to find the right solution for your individual needs.

■ WHO IS “AUSTRALIAN WEIGHING EQUIPMENT GROUP”

Jeff & Trevor Baillie started Australian Weighing Equipment (or AWE) in 1981, focusing on weighing solutions based on engineering principles. For nearly 40 years AWE has built its reputation as a leading supplier of robust weighing, packaging & bulk handling equipment. Our innovative engineering and continuous product developments have led to designs that will stand up to the rigours and demands of your applications.

AWE has increased its investment in manufacturing facilities with a new 3,200sq/m factory in Sydney which has

- A CNC Machine Shop
- Heavy Metal Fabrication Shop
- Larger work areas for our team of qualified tradesman

Acquisitions of Bradwood Packaging and Dendy Packaging and Design Engineering has increased our packaging and engineering experience.

In 2008, AWE established a manufacturing facility in China - AWE Group Packaging and Bulk Materials Handling Equipment, a purpose-built 5,000sq/m factory in Suzhou China (70kms From Shanghai).

All of the products we offer are Australian designed and manufactured under our strict quality control system in our own factories both locally and internationally.

■ LOCATIONS OF AUSTRALIAN WEIGHING EQUIPMENT
